CORRIGENDUM

The author would like to apologise for an error that occurred in *Annals of Human Biology*, November – December 2011; 38(6):716–720.

Adult stature, body proportions and age at menarche in the United States National Health and Nutrition Survey (NHANES) III

Matthew H. McIntyre

The standard deviations given in Table 1 are incorrect. The author apologises for any inconvenience this may have caused.

The corrected Table is provided below:

Table I. Means and standard deviations (in parentheses) of study variables, stratified by education (relative to graduation from high school). The final column shows the *p*-value for differences between education levels in a general linear model with no covariates (by likelihood ratio test, 2-degrees of freedom).
